Who We Are

Chairborne Global Services Limited is a company providing diverse services to the oil & gas industry in Nigeria and Africa. Services ranging from Marine Logistics, Security Solutions, EPIC (Engineering, Procurement, Installation & Commissioning) Dredging and Reclamation, Offshore Support Services.

We adhere to the highest standards of professionalism and strive to surpass the expectations of our clients through our emphasis on safety, quality, integrity and teamwork. To us, safety is not an act but part of our culture which ensures we deliver quality services in a safe environment without lost time or injuries.

OUR MISSION

To develop our people to be innovative and solution driven.
To ensure best practice organizational structure with a culture that promotes diversity and inclusiveness.

OUR VISION

To be recognized as a provider of innovative and sustainable Marine and EPC services in Africa.

OUR GOALS & OBJECTIVES

Provide world class services and assets to the Nigerian Oil and Gas Industry. Support and develop local human and asset capacity.

Introduction

CHAIRBORNE GLOBAL SERVICES LIMITED is a private company limited share, incorporated in the year 2015 with RC number 1282255.

We are a growing servicing, engineering and construction firm composed of experienced professionals with an enviable track records in the delivery of various bespoke solutions. We undertake Security Solutions, Offshore Support Services, Marine Logistics, Dredging, Procurement and Construction services for medium and large scale engineering projects in Nigeria.

With our partnership with Nautic Africa (PTY) Limited in South Africa we have facilitated the sale of over sixteen (16) security patrol any crew vessels working on contracts with various IOCs in Nigeria.

We undertake marine logistics projects for corporate organizations in the oil & gas industry and also handle manpower and labor supply services. We provide quality services nurtured on drive, enthusiasm and hard work. Our success is hinged on high and advanced technology, total professionalism and sophisticated equipment. CHAIRBORNE GLOBAL SERVICES LIMITED provides a full range of professional engineering services in Dredging and Civil works and Facility management. Our objective is to deliver timely, practical and cost effective solutions.

We have set high performance goals by forging partnership with our clients and by adopting an open approach to an ever changing world markets as well as by integrating the challenging technological innovations.

CORPORATE GOAL

To be a leader in Marine Logistics and Offshore Support Services, with a commitment to professionalism and quality.

CORPORATE MISSION

Our mission is to strive to identify and integrate Processes within our Organization to maintain and develop the agreed services which support and improve the effectiveness of its primary activities.

What We Do

MARINE LOGISTICS/ SECURITY SOLUTIONS

Our partnership with Nautic Africa one of the leading shipbuilders and maritime services provider in Africa, we have a robust experience in the provision of security services. Our operations have expanded to include Marine Security for the Oil & Gas and Maritime sectors and we currently own some fleet of assets namely: 35m ballistic security vessels, 22m ballistic fast crew boats fleet and various ramp barges and push tugs.

DREDGING & RECLAMATION

We have devoted and experienced personnel that ensure that projects are executed in compliance with Client's safety requirement and international standard. We are currently in strategic alliance with a sister company for dredging services.

ENGINEERING, PROCUREMENT, INSTALLATION & COMMISSIONING

Our unique ability to provide seamless integration of engineering, procurement, installation and commissioning services throughout all phases of a project.

OFFSHORE SUPPORT SERVICES

We specialize in providing high quality, trained and experienced personnel for offshore engineering and integrity work as well as new construction and various subsea projects.

TOTAL ASSET INTEGRITY

Asset Integrity Management provides a holistic, systematic approach that ensures assets are maintained, fit-for-purpose throughout their lifecycle. This ensures that assets are able to perform their required function effectively and efficiently whilst minimizing costly unscheduled shutdowns, risks to personnel, plant and the environment.
